

Pressure Indicator Box

BIP01 - BIP02

Description - General information

The pressure indicator box controls the pressure in pneumatic installations, in accordance with norm NF S61932 (version 2008 & 6.4), both from the point of view of the operating pressure and airtightness as well as the working order of the network.

The box is placed on the Opening network(s) between the smoke exhaust box and the apertures. The pressure gauges indicate the pressure in each circuit of the installation.

The box is compatible with all types of CO² smoke exhaust boxes and can be added to an existing installation.

BIP01
with 1 pressure gauge
for Open only box
and Open Close

Dimensions (mm)		
H	W	D
80	200	65

BIP02
with 2 pressure gauges
for Dual-zone box
